As a black professional woman, often we don't have access to the same resources that others do. That is why we need programs like 5280 Business Professional Women (BPW). This program aims to advance business opportunities for women of color by giving them access to resources and support they wouldn't otherwise have. Being a part of 5280 BPW you not only gain invaluable knowledge but connections with other successful female business professionals around Denver who are leading the way in our community – providing inspiration and motivation along your journey. Joining 5280 BPW isn't just a recognition of success, it's an investment in yourself: one that will pay off twofold! Join today.
